Researchers design technology that sees nerve cells fire

Researchers at Stanford University, Palo Alto, California, have created a noninvasive technology that detects when nerve cells fire based on changes in shape. The method could be used to observe...

**WELCOME TO THE NEW
ANA ON DEMAND EDUCATION CENTER**

Earn AMA PRA Category 1 Credit(s)[™] and catch up on research at the forefront of neurology and neuroscience with OnDEC, the American Neurological Association's On Demand Education Center.

OnDEC allows you to earn CME credits anywhere, from any device by giving you access to recordings from the ANA Annual Meeting and other ANA educational offerings.

[Take a look and give it a try!](#)

- Click **OnDEC Packages** and choose **2018 Essentials Course Package**. The courses offered with this package will be displayed and are ready for you to view!

(Please note: As noted at the time of purchase, course offerings are contingent on each speaker's permission to use their presentation for this purpose. CME credits are available for the presentations that met ACCME guidelines.)
